

Mrs. Darling's Kindergarten

November 2011

Literacy

While we are focusing on the short a and i sounds, we continue to learn about all letters and sounds. We will begin to write in our journals. As the children write emphasis will be on stretching the sounds and using inventive spelling.

Math

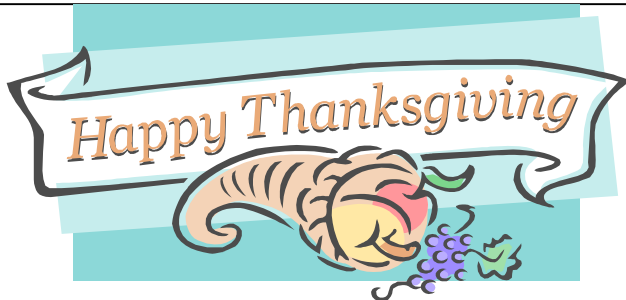

Science/Social Studies

This month we will be learning about animal homes. We will also be sharing about our families and what we are thankful for. Please have your child bring in a family picture to share. We will also be learning about Veteran's Day.

Reading Strategies

Please have your child point to words as they read. This will help your child focus on the letters and sounds.

Using picture clues will also help your child.

I look forward to meeting with you at your conference time on November 21st or 22nd. Please remember that Tuesday is our library day!
