Mrs. Lopes' Class

September 2011

Mrs. Lopes' Classroom Newsletter

Learning Highlights

Math

This month we are learning about all types of graphs. We have even collected data to create our own graphs! Please be sure to encourage your child to study his or her math facts each night.

Writing

To start the year off right, we are setting goals for ourselves and setting goals book. Be sure to look for your child's goal pennant at Open House!

Reading

We have been discussing our summer reading book, Chocolate Fever. The students worked in pairs to create a summary of a chapter. We will begin keeping track of at home reading with a reading log. Be sure to look out for it.

Social Studies

We have been studying different aspects of geography including reading maps and globes and locating points using latitude and longitude and a compass rose. Remind your child to study his or her map of the world for our upcoming test.

Thank You Parents!

A special thanks to all of those parents who donated classroom supplies to us! We really appreciate it!

Welcome to Fourth Grade!

Welcome to Room 241! We have been working very hard already in fourth grade. The students and I have spent time getting to know one another and have learned lots of new things about each other! The class has been working on collecting compliments and is off to a wonderful start. We are focusing on working as a team in all that we do!

Upcoming Events

Early Release- Thursday September 15th @ 12 noon
