

December

Miss Peixoto's Classroom Letter

What's Going on in our Class?

Math: This month in math we are learning Multiplication. We are learning all the facts, please review facts each night with your child as it is important to memorize facts for future math instruction. We will explore multiplication and division with practice, activities, and guided structure.

Writing: This month we are working on December Acrostic Poems as well as writing a wish to Santa. We will continue to explore our 6 writing traits and begin to practice the structure of open response questions. We will also use strategies in answering and finding details in a story for comprehension.

Reading: We are already in our Third Unit, where the students are learning skills on cause and effect, fact and details, and author's purpose. The students are also gaining deeper knowledge on vocabulary words and story ideas.

Science: We are wrapping up our unit on Weather and we will be working on matter this month. The students will be introduced to many topics in matter, as well as getting their hands on some fun activities.
