

# February

## What's Going on in our Class?

Math: This month we will be learning more about Division. Students need to continue learning all of their multiplication facts. We will explore division with remainders, as well as the process of dividing 3-digit dividends. We will also be working on Measurement and Capacity in math.

Writing: This month we will be working on writing skills that will help us with the MCAS. The students are working on daily writing pieces, and are working hard on creating good "hooks" for their readers in their writing. Lots of creative adventures await us!

Reading: We are currently reading Stone Fox as our novel for our class. The students are working diligently on their comprehension questions and many great discussions have opened up in our classroom. We are also working on reading skills like comparing and contrasting, author's purpose, and character traits as we get deeper and deeper into our reading each week.

Social Studies: We are learning about the Mid- Western States. The students are learning the climate, environment, history, and geological features of these states. The students will also be learning the capitals for all twelve of the Mid- Western States.

## Upcoming Events:
