

February News

Mrs Barboza's Kindergarten Class

Reading and Writing News

This month the children will continue to learn new words and letters. They will practice writing complete sentences about non-fiction topics. You can help them be successful by encouraging them to write about things they enjoy. You can help them sound-out words but please don't spell it for them, invented spelling helps them learn and is all their own! Help them remember spaces too!

Marvelous Math

This month the children will continue to measure height, length, weight, and capacity using non-standard forms of measurement. They will compare and estimate too! Later in the month the children will begin a unit that will teach them about shapes. They will learn the names of several solid shapes and explore how shapes are found all around us!

Notes

- Valentine Celebration February 12th. More information to come!
- "100th day in K" will be our first day back after vacation! More information to come!
- Happy Groundhog Day! February 2nd. Will he see his shadow and bring us six more weeks of winter? See the video at www.groundhogday.org
